

# W8: L1 Group Task - TO DO IN CLASS

Demonstration Example:

pdf\_Q&A - attached as pdf\_Q&A.ipynb

Section 1: Speech-Image – attached as Speech\_toImage.ipynb

Section 2: image\_caption – attached as image\_caption.ipynb

**Your submission should include:**

- 1. Report** – a clear summary of your objectives, methods, results, summarizing key outcomes, and highlighting what you learned and how you plan to build on it.
- 2. Code or Repository Link or Files** – ensure all scripts and dependencies are included.

W8 L1 Rubric	
Criteria	
Objectives	<p><b>10 pts</b>  <b>Full Marks</b></p> <p>Clear, specific objectives for all three sections (pdf_Q&amp;A, Speech-to-Image, Image Caption) with well-defined goals for each notebook</p>
Methods	<p><b>10 pts</b>  <b>Full Marks</b></p> <p>Detailed explanation of approach, tools, and techniques for each task:</p> <ul style="list-style-type: none"> <li>• PDF Q&amp;A implementation methodology</li> <li>• Speech-to-Image pipeline and model selection</li> <li>• Image captioning architecture and approach</li> </ul>
Results	<p><b>10 pts</b>  <b>Full Marks</b></p> <p>Comprehensive summary of outcomes with evidence:</p> <ul style="list-style-type: none"> <li>• Example Q&amp;A outputs from PDF</li> <li>• Generated images from speech input</li> <li>• Image captions with corresponding images</li> <li>• Performance metrics or observations</li> </ul>
Learning & Future Work	<p><b>5 pts</b>  <b>Full Marks</b></p> <p>Insightful reflection on:</p> <ul style="list-style-type: none"> <li>• Key learnings from each notebook</li> <li>• Challenges encountered and solutions</li> <li>• Concrete plans for improvement or extension</li> <li>• Connections to course concepts</li> </ul>
PDF Q&A Notebook	<p><b>5 pts</b>  <b>Full Marks</b></p> <p>Fully functional, well-structured code:</p> <ul style="list-style-type: none"> <li>• Successfully loads and processes PDF documents</li> <li>• Clear implementation of Q&amp;A functionality</li> <li>• Appropriate outputs with example queries</li> <li>• Well-documented code</li> </ul>
Speech-to-Image Notebook	<p><b>5 pts</b>  <b>Full Marks</b></p> <p>Fully functional, creative implementation:</p> <ul style="list-style-type: none"> <li>• Successfully processes speech/text input</li> <li>• Generates appropriate images from prompts</li> <li>• Clear pipeline with all required components</li> <li>• Well-documented code</li> </ul>
Image Caption Notebook	<p><b>5 pts</b>  <b>Full Marks</b></p> <p>Robust implementation:</p> <ul style="list-style-type: none"> <li>• Proper image loading and preprocessing</li> <li>• Accurate caption generation</li> <li>• Multiple examples demonstrating functionality</li> <li>• Well-documented code</li> </ul>
